

PRESS RELEASE

SHAH ALAM, SELANGOR

JUNE 18, 2013

OPCOM CABLES TO INCREASE PRODUCTION CAPACITY

OPCOM CABLES SDN BHD ("OPCOM CABLES") will be investing in capacity expansion and manufacturing space at its Shah Alam plant. The capital investment is estimated at RM8.5 million, for cable manufacturing equipment and a new warehouse cum production facility for new types of cables and passive components.

Established in 1995, OPCOM CABLES is a pioneer Bumiputera fiber optic cable manufacturer. The Company specializes in fiber optic cables for outside plant as well as indoor applications including fiber optic passive components for FTTx applications. OPCOM CABLES currently have a combined production capacity of approximately 55,000 cable kilometers per year.
