Notes on the quarterly report - 31 December 2007

A. EXPLANATORY NOTES AS PER FINANCIAL REPORTING STANDARD (“FRS”) 134, INTERIM FINANCIAL REPORTING

A1. Basis of preparation

The interim unaudited financial statements for the quarter under review have been prepared in compliance with the Financial Reporting Standards FRS 134, Interim Financial Reporting and Paragraph 9.22 of the Listing Requirements of Bursa Malaysia Securities Berhad (“Bursa Securities”).

The interim financial statements should be read in conjunction with the audited financial statements for the year ended 31 March 2007. These explanatory notes attached to the interim financial statements provide an explanation of events and transactions that are significant to an understanding of the changes in the financial position and performance of the Group since the year ended 31 March 2007.

The accounting policies and methods of computation adopted by the Group in this interim financial report are consistent with those adopted in the financial statements for the year ended 31 March 2007 except for the adoption of the following new/revised Financial Reporting Standards (FRS) effective for financial period beginning 1 April 2007:-

FRS 117 - Leases

FRS 124 - Related Party Transaction

Amendment to FRS 119₂₀₀₄ Employee Benefit - Actuarial Gain or Losses, Group Plans and Disclosures

With the exception of FRS 117, the adoption of the above FRS does not have significant financial impact on the Group. The principal effects of the change in accounting policies resulting from the adoption of FRS 117 are discussed below.

FRS 117: Leases

Prior to 1 April 2007, leasehold land and buildings held were classified as property, plant and equipment and stated at cost less accumulated depreciation. The adoption of the revised FRS 117 has resulted in the change of accounting policy relating to the classification of leases of land held for own use. Leasehold land is now reclassified as an operating lease and the up-front payments represent prepaid lease payments amortised on a straight-line basis over the lease term.

The Group has applied the above change in accordance with the transitional provisions of FRS 117 whereby the unamortised amount of leasehold land is retained as the surrogate carrying amount of prepaid lease payments. The following comparatives were restated following the adoption of FRS 117:

	As previously reported RM'000	Reclassification/ Adjustment RM'000	As restated RM'000
As at 31 March 2007			
Property, plant and equipment	35,500	(11,292)	24,208
Prepaid lease payments	-	11,292	11,292

A2. Audit Report

There were no audit qualifications on the annual financial statements for the financial year ended 31 March 2007.

A3. Seasonality of interim operations

The fiber optic cables market is observed to be seasonal in nature and dependent on the general economic and business environment. Given the Group's long experience in fiber optic cables market, the Group is well positioned to ameliorate any seasonal fluctuation of demand for its products.
